Dover High School (DHS) has a long history of providing excellence in high school education for students in the Capital School District. The original Dover High School was built on Pat Lynn Drive in 1965, in 2010 the community voted to provide funding for a state-of-the-art facility that opened to serve nearly 1500 students on Dover High Drive in the fall of 2014. At Dover High School we believe it is essential to inspire and guide students with the support of parents and the community to become productive and contributing citizens.
